THE RESULTS OF WAR. The British Almanac and FLAT Roors FOR Houses. - The following suggesd man stood at his which ushered in the New Year, and ga get which ushered in the New Year, and ga look of long despair up into the fixed, star and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas, and down upon the still, clean, white earth eas near exact as such figures ever get. And the whole sum is but 20.000. Hat the compiler been at pains to compute how many of this number must fast disappearing; we wonder how they ever came fast disappearing in the British which the British and the five miner of three from the Scientific American:

"All the new houses which have been built in N. York recently, have what are termed flat roofs; the which and the numerous preparations with which the country is inundated." Also, their Diarrhea Cordial, of which and the numerous preparations with which the country is inundated." Also, their Diarrhea Cordial, of which and the numerous preparation to the amount justly debitable to war.

Twenty thousand men is a small story for so in a building, it is easy to walk and work on the that he would not be without it on his section on any acstormy a time. Less than a thousand men a year; flat roof, so as to command the fire, if it be in the when some of the years contained such battles as adjacent buildings; this cannot be done on peaked worthless imitations under different, but similar names, but those of Seringapatam, and Assaye; Trafalgar and roofs. Flat roofs are cheaper and more convenient the persons who once use Bragg and Co's liniment will not and brought thin dated him at the diverging which his father placed him at the diverging and co's liniment will not be deceived by any vile and ruscally cheat who would palm to build new houses to have flat roofs on them. It is better to have a flush story at the top of a building than a peaked, cramped up garret, which is Marketed.

Marketed

Marketed dell of flat the moletracks of vice, into a dark Moore, and Duckworth won their laurels. The only comfortable for traveling on the hards and n of dripping poison, full of serpents ready campaigns of Indio, Egypt, the Peninsula, Belgium, knees. and the United States were fought. As much as "Several houses in Europe have been built with mortal energy and squandered capital could do to roofs as reservoirs for water. It is a valuable thing provoke slaughters was certainly done; and the re- in case of fire, or for domestic purposes; a large

But let us, having thus little, be content therewith. The roll of the dead is not all told in these Give me my youth again! Place me again battle field despatches. Thousands on the lists of wounded, and hundreds of those who are returned with that ambiguous descriptive, "missing," should this father and his youth were past long ago. - be properly added to the mortuary sum. Of the will o the wisps dance upon the marshes and wounded moreover, how many were better dead aw willing over the burying ground, and he said, than living maimed and helpless for life! How net are my foolish days" He saw a star shoot many have only kept out of the return of "dead," to on heaven, glimmering in its fall, and vanishing live through a querulous old age of poverty, ringing mached the earth. " That am I!" said his bleed the changes on rational ingratitude and private sufhearl, and remorse sunk its serpent fangs deeper fering. And after all, will these ex parte records, made upon the flush of triumph, and made up. Bedisordered imagination pointed out to him spectoubtless, as meagerly as might be, to enhance the wilking upon the roofs, and the wind mill raised splendor of victory-how will they compare with arealening arms to crush him, and a mask which the bulletins of the enemy, and the tale of the dead

JAPAN. - In the December number of DeBow's Reanidenly flowed down from the tower as a church view, a work now so deservedly popular, we find an heard in the distance. His mind became cal elaborate paper on the Empire of Japan, from which be looked around the horizon, and over the wide it appears that that renowned empire consists of three in imitation of oak, that last year it put forth a quanand he thought of the friends of his youth, who thousand eight hundred and fifty islands lying off tity of leaves, and grew an excellent crop of acorns. happier and better than he, were teachers of the the coast of China, having an area about equal to fathers of happy childen, men whom the world that of Germany, including Prussia and Austria, or blessed, and he said, " O! I could also have about six times that of the State of New York. It dear parents, had I fulfiled your New Year's wish the same latitude as the United States and Canada the back way." They are volcanic, and subject to earthquakes. The agricultural products are the same as those in this ared to him as if the mask which had assumed country, with the addition of tea. The empire is rich testures in the charnel houses stood up, and through in minerals, the precious metals abounding. The supperstation which on New Year's eve sees ghosts | coins of the Japanese are quadrilateral pieces, with ture events, it was at last changed into a living a hole in the middle, and bearing the value, date and name of the maker stamped upon them. The sould see no more; he covered his eyes; a thous. Government is a heriditary absolute monarchy .-tears streamed forth, disappearing in the snow The laws are extremely cruel, almost all crimes bemortless and desparing, he sighed gently, "Come ing punished with death, and in some cases the punishment extends to all the relations of the criminal. it came again! For that fearful experience The revenues of Japan amount to \$100,000,000 anconly a dream of the New Year's night. He was nually The standing army of the empire. in time 1st Class-Reading, Spelling, &c., a routh, errors had been only a dream. But he peace is 120,000 men. The population is about 2d Class-Arithmetic, English Grammar, Geography and History, and God that he, still young, could turn aside from 50.000,000. It is estimated that the trade of Japan 3d Class—Algebra, Greek, Latin, &c., the courses of vice, and enter upon the sunny with this country, if she opens her ports, will be January 7th, 1852 worth more than \$200.000.000 annually to us. The from with him, young reader, if thou standest upon whole world are now awaiting with intense anxiety THIS INSTITUTION will commence its first session on beggir road. This frightful dream will one day be. the result of the expedition about to sail for Japan. I Monday, the 24th of January next, under the patronmethy judge; but if thou shouldst once, full of an. If the object desired is attained, the result will be age of the Trustees, and Luk : C. GRAVES, A. M., of Warleish, call out ' Come again, beautiful youth,' remem immensely important to the whole civilized world. Mobile Daily Advertiser.

NOTICE is hereby given, that the Baker's Creek School, Bladen county, will commence on Monday, the 10th instant. Parents wishing to procure a situation for their sons in this School, can be accommodated on reasonable terms. The year will be divided into two sessions of five months each. Board can be obtained in the families of Mr. Lesesne and Mr. Lewis, for \$8 per month.

The following are the rates of tuition per month:

CLINTON FEMALE INSTITUTE. renton, N. C., as Principal of the Institute.

The Trustees flatter themselves that, in the selection of Mr. GRAVES as Principal, they have accomplished more than is commonly done in the infancy of such institutions, viz: They have selected a gentleman in whom are united skill in teaching. For the last four years Mr. Graves has been arrenton, and has taught with the most complete success. The Trustees feel assured that their choice will be most highly appreciated by the former patrons and pupils of the

Mr. Graves is now communicating with many accomplished Females in different parts of the country, from whom a timely selection of suitable assistants will be made to aid enable us to present to the public a Faculty of Teachers in the beginning which is not to be surpassed by any Institution of the kind in the Southern States. The town of Clinton, situated as it is only 14 miles from

four horse stages running through the town from Fayetteville to Warsaw, render it very accessible. The situation is equally remote from the very flat lands of the Atlantic coast and the mountainous regions of upper North Carolina, with a fine surrounding country, and a most salubrious climate, whi h together render it one of the most healthy, villages in the State.

The water in the village is generally very fine, and that at the Institution most excellent. The building itself has been most highly complimented by your county, but a credit to the State." It unites beauty very low, and fully warranted for two years. Old Pianos with usefulness being large and commodies- and at the same | taken in exchange. with every other convenience, both for teacher and pupil. > BOSTON, Jan. 1 - Naval Stores - Spirits Turpentine has ruled unusually high compared with some previous years, and prices have been quite functioning. The lowest prices were early in the year wher, sales were made at 37 a and the current prices for some months past, from 57 a 6le are the highest obtained, although at the close an advance in Wilmington and in New York has quite unsettled the market, and 64c and upwards is asked. The range of prices in 1851 were from 34 a 42c.; in 1850 from 32 a 50c, and in 1849 from 32 a 38c. There is no stock on the market except i distillers' hands. Tar, the first nine months of the ranged from \$1 875 a 2 50, the principal sales having been from \$2 a 2 25, but owing to a very reduced stock, prices in October were forced up to \$3 75, from which they subsequently declined to \$2 25 a 2 50 per bbl. Rosin has been in good demand throughout the year and at generally improving prices, the sales of common ranging from \$1 40 a 1 874; closing at the highest figure. The consumption of this article has very materially increased, large quantities being used for the manufacture of Rosin Oil. The sales of Pitch during the year have been from \$1 50 a \$2 per bbl. RIO JANEIRO, Nov. 23.—Sales of Coffee for the week ending the 25th, amounted to 5.000 bags, and prices were unaltered. The stock on hand amounts to 80,000 bags.
